

WINTER IS COMING

- ◆ Prepare your facilities for the cold
- ◆ Avoid damage from freezing
- ◆ Protect your valves, instruments, & other components
- ◆ Save on energy costs by keeping your process warm more efficiently

◆ Blanket Insulation

- Custom made to perfectly fit any component geometry
- Easily removable & reusable
- Fire retardant
- Sound dampening
- Protect workers from brushing up against hot components
- FREE on-site energy audit with detailed report

◆ Heating Elements

- Self-regulating freeze protection heat trace
- Circulation & immersion heaters
- Air heaters for hazardous, corrosive, & infrared radiant environments
- Other industrial heaters and systems
- Installation & services
